

## After 2015: International Development Policy at a Crossroads

Andy Sumner and Meera Tiwari

'This book is GREAT! Our world has been dislocated by the current crisis. This book throws us a life-line. It is readable and entertaining, but also serious, strategic and thoughtful - a significant attempt to re-think development on a global scale. I hope it sells a million copies.' - Simon Maxwell CBE, Director, Overseas Development Institute, London

'This is a book which does what it sets out to do - to look at key issues in international development, to explain the context and to propose some pathways ahead as we enter a more complex, global society. One to add to the collection.' - Professor Myles Wickstead, Open University and former Head of Secretariat, Commission for Africa

'Sumner and Tiwari pose important questions. Read what they have to say as a guide to important debates on some enduring issues.' - Richard Manning, former chair Development Assistance Committee, OECD

'This book is an insightful and invaluable roadmap to the world of development policy.' - Dr Claire Melamed, Head of Policy, Action Aid

'This book widens our discussion with a fresh perspective. It enhances our understanding of the dynamics of development in the context of critical global changes.' - Dr Shankar P Sharma, Former Vice Chairman, National Planning Commission, Government of Nepal

'A very interesting book addressing the crucial questions, not only for researchers or policy makers but for everyone.' - Dr Tran Tuan, Director, Research and Training Centre for Community Development, Vietnam

It is 2015. George Clooney is US President. Angelina Jolie is Vice President. Bob Geldof and Bono, respectively, Irish President and Prime Minister. China has just overtaken the US as the world's largest economy. India is not so far behind. Some of the UN poverty targets – the Millennium Development Goals (MDGs) were met. Some were not. Progress in Africa accelerated following large aid flows from new donors (such as China) but repayments are now looming. The other MDGs were missed though not as badly as expected. Climate change/chaos has intensified with many of the impacts felt in the South. Urbanization is accelerating. What next? The MDGs have played a major role in focusing policy since their original incarnation in the mid to late 1990s. What happens when we no longer have the MDGs - what will guide policy after 2015?

**CONTENTS:** Introduction \* PART I: THE MDGs \* Development Policy at a Crossroads \* The MDGs and Beyond \* How does Development Policy Change (or Not)? \* PART II: THE 3GS \* Doing Governance \* Doing Growth \* Doing Globalization \* Conclusions

ANDY SUMNER is a fellow of the Vulnerability and Poverty Research Team, Institute of Development Studies, University of Sussex, UK. MEERA TIWARI is Head of International Development Studies at the University of East London, UK.
