Development Studies in Spanish: A Critical and Constructive Response from the Peripheries

EADI

Challenging One-Sided Conventional Stories/History

DS in Spanish (DSS) main features

- 1. DSS seen as a broad and pluralistic conception (peripheral and heterodox status)**
- 2. DSS and its strong association with structuralism and dependency theories**
- 3. DSS is critical and constructive**

DS in Spanish (DSS) main features

1. DSS seen as a broad and pluralistic conception

DSS: overall view

Main problems:
Underdevelopment
Dependency
Centre - Periphery

Responding paradigm:
Towards a
multidisciplinary
field of research

↔ Influenced to a certain extent by

Summing up

- DSS is a narrative that is pervaded with a genuine spirit of humanism
- DSS offer a broad and particular view of different peripheries with emphasis on alternative views of history
- DSS is **connected to the past and committed to the future**
